

March 18, 2019

Dear Colleague,

Greetings!

Neurocritical care is an emerging specialty in the Philippines that aims to explore and provide more efficient and expedient means of managing acute critically ill neurologic patients to ensure improved recovery and outcome. Emphasizing the importance of a multidisciplinary approach to neurocritical care, the **Philippine Neurocritical Care Society (PNCS)** was founded in 2017 as a non-profit organization made up of experts and recognized leaders in various disciplines, such as neurocritical care, endovascular, neurosurgery, critical care, stroke, neuroradiology, clinical nutrition, rehabilitation medicine, nursing, clinical pharmacy and respiratory therapy from different institutions. The society is a Global Partner of the Neurocritical Care Society of the US.

We are pleased to announce that in collaboration with the **Critical Care Nurses Association of the Philippines, Inc. (CCNAPI)**, the PNCS will be holding its very first Congress with the theme “**The AGE of Neurocritical Care: Adapt, Grow, Evolve!**” this coming **April 28 - May 1, 2019** at **Makati Diamond Residences 118 Legazpi St., Legaspi Village, Makati, Philippines**. This congress will be attended by approximately 300 delegates composed of local and international physicians, nurses, clinical pharmacists, physical therapists, nutritionists, respiratory therapists and other healthcare professionals.

In line with this, we would like to invite you and your institution to join us during this momentous event and learn from our roster of foreign and local speakers who will be sharing their knowledge and expertise.

Details of the event are as follows. We have also attached the event poster for your perusal.
