

# Completion of Course

The course is composed of 9 modules. At the end of each module, learners must take the quiz and achieve a score of 4 out of 5 to pass the quiz and proceed to the next module. The course is completed once all modules are covered and all quizzes are passed.

## How to Get a Certificate

A Certificate of Completion is awarded upon finishing and passing the quizzes for all 9 modules of the course.

*"The End-of-Life Nursing Education Consortium (ELNEC) Project is a national end-of-life educational program administered by City of Hope (COH) and the American Association of Colleges of Nursing (AACN) designed to enhance palliative care in nursing. The ELNEC Project was originally funded by a grant from the Robert Wood Johnson Foundation. Additional funding has been received from the Cambia, Millbank, Oncology Nursing, Open Society, Aetna, Archstone, California HealthCare Foundations, National Cancer Institute (NCI), US Cancer Pain Relief Committee and the Department of Veterans Affairs (VA). Materials are copyrighted by COH and AACN and are used with permission. Further information about the ELNEC Project can be found at [www.aacn.nche.edu/ELNEC](http://www.aacn.nche.edu/ELNEC)."*

# Course Overview

The End-of-Life Nursing Education Consortium (ELNEC) Pediatric Curriculum is an online training course designed for nurses and allied health professionals on pediatric palliative care. ELNEC is an internationally accredited curriculum which has been adapted to Philippine culture and context. The course consists of nine modules addressing critical aspects of palliative care of children with cancer and their families:

- Module 1 Introduction to Pediatric Palliative Nursing
- Module 2 Perinatal and Neonatal Palliative Care
- Module 3 Communication
- Module 4 Ethical/Legal Issues
- Module 5 Cultural Considerations
- Module 6 Pain Management
- Module 7 Symptom Management
- Module 8 Care at the Time of Death
- Module 9 Loss, Grief & Bereavement

Common themes integrated throughout the course include the significant influence of culture on palliative care, the importance of incorporating psychosocial care in palliative care, and the interdisciplinary nature of palliative care.

# Objectives

The course aims to enhance nursing and health professionals' knowledge and skills in pediatric palliative care.

# Target Enrollees

The course is targeted for nurses and allied health professionals (e.g. social workers, child life specialists) who would like to be equipped on pediatric palliative and end-of-life care.

# Duration

Learners may complete the modules at their own pace within a maximum span of four (4) weeks.

# How to Enroll
